

Netwrix Enterprise Auditor (formerly StealthAUDIT) for Active Directory

Keep Active Directory and Microsoft Entra ID (formely Azure AD) orderly and secure

Netwrix Enterprise Auditor for Active Directory gives you the visibility you need to clean up your on-premises or hybrid Active Directory, no matter how complex and cluttered it has grown over the years, and govern it effectively moving forward to enable security, productivity and compliance.

REDUCE THE RISK OF BREACHES AND DOWNTIME

Identify shadow admins, stale objects, accounts with weak passwords, improper Group Policy object (GPO) settings and other vulnerabilities before attackers can exploit them.

MAINTAIN SECURITY EASILY WITH EFFECTIVE GOVERNANCE

Keep Active Directory clean and secure with self-service access request workflows, streamlined access reviews, easy permissions analysis, automated cleanup, and preconfigured reporting.

STREAMLINE COMPLIANCE AND AUTOMATE WORKFLOWS

Speed audit preparation with out-of-the-box compliance reporting for many common standards. Automate entire processes via integration with third-party IT service management (ITSM) tools.

CUSTOMER FEEDBACK

“Great product and excellent service. It has been a great asset to compliance, audit and cybersecurity. We are now able to shift the load of fileshare access reviews from a tech to the owner, which saves a lot of time.”

Key Features of Netwrix Enterprise Auditor for Active Directory

HOW IS NETWRIX ENTERPRISE AUDITOR FOR ACTIVE DIRECTORY DIFFERENT?

MINIMIZE SECURITY RISKS

Get deep visibility into your AD and Microsoft Entra ID (formerly Azure AD) and clean up gaps like weak passwords, vulnerable service and computer accounts, and improper DSRM Admin account settings.

MAINTAIN STRONG GOVERNANCE

Streamline user access reviews, enable self-service access request workflows, and automate the identification and cleanup of stale, duplicate and other risky AD objects.

TAKE CHARGE OF GROUP POLICY

Audit your GPOs and their settings: Analyze where they're linked, spot misconfigurations that could cause security or operational issues, and flag redundant GPOs that can be consolidated.

CONTROL PRIVILEGED ACCESS

Collect and analyze every permission to every object to understand exactly who has privileged access in AD — as well as “shadow admin” user accounts whose privileges could be quickly escalated to admin level.

SAVE TIME ON COMPLIANCE

Streamline compliance reporting with preconfigured and customizable reports aligned to HIPAA, PCI-DSS, GDPR, SOX and other common mandates and standards.

SUPERCHARGE WITH AUTOMATION

Automate processes like incident tracking and response by integrating Netwrix Enterprise Auditor for Active Directory with third-party ITSM such as ServiceNOW.

SCALABLE

Its lightweight architecture scales easily to meet the needs of even the largest and most complex IT infrastructures.

FLEXIBLE

It's a turnkey solution for common needs, but highly configurable to give you the flexibility to fulfill your unique requirements.

INTEGRATED

Interoperability with your current systems and processes maximizes the value of your existing investments.
